Value of information presented	174	3.6	There wasn't enough time for this presentation. It ended up being confusing. Not enough time get a thorough understanding & dialogue w/presenter. Needed to get to the meat of the presentation faster. I didn't like the comparison of wood & working compared to our children as "Damaged goods".
Professional Quality of Presentation/Presenter	176	3.6	Very helpful & practical. Lots of info, would liked to have seen more lessons. Pick up the pace (verbally), explained in a rush. It would be nice to have more time w/ this one. Would like name of demonstrated material to be included in packet.
Relevance/Applicability of Material to my job	172	3.5	I want to try this! Structured/practical for a teacher, probably supportive for those teaching. It sounds relative but not enough time to clearly deliver it! Overview synopsis of complete info would have been helpful – completion of info/outline to handouts. Time! Exciting deliverance- would like more input/from audience etc. – but know time is a factor. Cute program, but lacks the depth of constructiveness theory as developed in the progressive era by Dewey & Buck.
Organization/Clarity of Presentation	165	3.4	I really like the emphasis on developing relationships with students – this is Key to working with high risk kids. Speaker obviously cares very much about her impact on students. She reinforced methods I use that have been questioned because I am not using "tough love" Mediation with students works tremendously! It was hard to me to hear a child referred to as "Damaged Goods". It felt offensive.

Value of information presented	249	4.0	Even more time to discuss. Need more time! Enjoyed interacting w/other professionals, as well as others comments! Excellent, need more time. Useful information. More could be covered in the way of strategies for “New-Comers” to Alt. Ed.
Professional Quality of Presentation/Presenter	273	4.4	Presentation was good. Unfortunately it was ahead of our program. I am here to learn how to start a program. Good “getting started” session to get us on track. Very interesting speaker that has given me more insight about working with my students. Intro. to whole conference could have been a good set. Too short a presentation – I wish we had more time to discuss strategies that work.
Relevance/Applicability of Material to my job	268	4.3	Offended @ the last sentence in explanation “educators as molders of damaged goods into finished products.” What a great way to begin this conference. Kind of focused & affirmed our process, challenges, etc. Everything she said is relevant & concrete & important BUT I’m looking for something I <u>don’t</u> know! I hope this conference has something I haven’t heard!
Organization/Clarity of Presentation	268	4.3	Thanks for sharing facts & the need to focus from “The Heart” Great workshop. Need time for more discussion. I appreciated the comparison of emergency care for CDS students to the hospital stages. This could & should be a full (1-2 hour) presentation again! Very relevant to my teaching situation. So much we can talk about – thank you for such an organized look at it all. I liked the “hands on” & participating style of the presenter. Networking time was useful. The deal w/our students and violence could be explored more. I personally feel that my students are not getting the help they need. Suggestions are greatly appreciated.

Value of information presented	83	3.9	Needs to give handouts with pertinent info. Not all ideas applicable to small school. Very good presentation!! Gave us a lot to think about. Outstanding Presentation, very helpful.
Professional Quality of Presentation/Presenter	85	4.0	Excellent Presentation Quick & Complete. Probably pressed for time. Too much info to cover. Lot of good information included. Beyond Excellent
Relevance/Applicability of Material to my job	85	4.0	Your program sounds exciting. Good info regarding primary assessment. I need to know about assessment tools. She told us how great her school was. Good work, I'm leaving w/ many good ideas. Super! Would be helpful to include vendor contact list for tools used at your school.
Organization/Clarity of Presentation	85	4.0	Speaker needs to control the Power Point herself to make a smoother presentation. Very appropriate presentation. A handout w/internet addresses and software would be helpful. Please bring samples & publisher names of program described, phone #'s too!

Value of information presented	59	3.7	Sorry, needs more solid material. Info needs more clarity – seemed like a forum for his point of view – i.e. “preaching to the choir” need more “how to implement” from his district’s perspective.
Professional Quality of Presentation/Presenter	67	4.2	A handout would have been more helpful. Excellent Presentation! Affirming to hear this message from a Supt. Who is courageous enough to think outside the mainstream.
Relevance/Applicability of Material to my job	60	3.8	Nice presentation. Felt like someone understands our plight. Was wondering the overall purpose of the presentation.
Organization/Clarity of Presentation	63	3.9	Lacked focus....needed to provide direction.

Value of information presented	263	5.0	Interesting, concise & relevant. I love it & I want it at my school. Great for sharing at home with my own family too. Very Dynamic speaker. I am interested in using program.
Professional Quality of Presentation/Presenter	262	4.9	Passion is obvious. Thanks for sharing yourself. I plan to further investigate the program. Excellent! Very insightful would like more time with this. I'm crushed – because I was just informed that our budget is \$0 now & I want this program in our county!!
Relevance/Applicability of Material to my job	264	5.0	Very motivating – I want this material. Awesome! I love the idea & am excited about this in my program. Excellent presentation – lots of practical examples combined with great stories. Very informative & pertinent to my needs.
Organization/Clarity of Presentation	264	5.0	Excellent – looking forward to learning more! Practical & hands on, very well presented. Great, love the motivation formula & concept. I'm curious about how things go with a class of 10 – 30. Wonderful, I will pass on the information to my school district, I would love to have you visit Stockton.

Value of information presented	142	4.3	Good information. Now I want more! A great appetizer with info that teaches me how to get the entrée. More time. Would have liked more on High School material.
Professional Quality of Presentation/Presenter	146	4.4	This session provided a good starting point for an investigation into curriculum for social change. How can this program be adjusted to fit a program that is isolated & has little or no support from administrations, counselors, psych services or probation?
Relevance/Applicability of Material to my job	140	4.2	Great to hear about the curriculum w/ relevant stories for kids. I wanted more info about ART & less about Fresno. Would like to know more about your program & ART.
Organization/Clarity of Presentation	141	4.3	Very helpful info – gave me some ideas to help focus my group. It would be beneficial to dis cuss how you get all your staff to being into this. I wanted to hear more specifically about ART. A great deal of potential to help students / would be a good program to hear about for a longer period of time.

Value of information presented	88	4.2	I would have loved info on creasing our circle of influence – i.e. how can we as CDS teachers influence policy. Would be good for District orientations. Excellent source of information. Very well presented. Very needed info should be shared universally. I concur with the theme of the presentation. Would like to hear ideas on how to move the reform into action.

Value of information presented	106	3.5	I need much more help. This clarified some questions; I have had about ASAM reporting. If possible, I now know less and am more confused. Very informative. I attended for my Supt. This was way out of my area of knowledge – But others attending truly seemed interested. Too much information for 50 minutes. Material seemed directed towards individuals who had not completed the answers. Should have been more Q & A presentation.

**Developing Assets**Total Evaluations received 37

	Total	Average	Comment
Value of information presented	137	3.7	I was seeking more specificity about the developmental assets & implementation – less of “how I do it in my room”. Focus strayed from topic. I would have liked more examples of what are assets and how to build on them. Remember modalities of learning, no real focus or presentation plan!!
Professional Quality of Presentation/Presenter	146	3.9	Very weak – no real answers given. More hand-outs please! Would like a character & social chart! Ways to help develop assets weren’t addressed as much as I would have liked.
Relevance/Applicability of Material to my job	140	3.8	Love the handouts- would have liked to have a visual or handout on some of the asset building strategies & activities the teachers are using. Thanks for the ideas and strategies to support the development of our youth!
Organization/Clarity of Presentation	131	3.5	I’d like to be able to meet with other teachers from schools like mine or were like mine How? I liked the discussion w/ audience/comparing notes – discussing other schools.

Value of information presented	51	3.9	Helps me to look into other areas for monies needed to support students. Nice handouts & packets of resources.
Professional Quality of Presentation/Presenter	58	4.5	I appreciated your enthusiasm & determination about building collaborations within community & other resources. Very organized; lots of resources.
Relevance/Applicability of Material to my job	52	4.0	Target appears to be administration. Would like to get started immediate Need \$
Organization/Clarity of Presentation	56	4.3	I have a lot less resources available & much less time or energy for al that. Lots of funding ideas to research.

Session 3**Utilizing Assessment Tools**Total Evaluations received 12

Value of information presented	45	3.8	Informal. Very informative
Professional Quality of Presentation/Presenter	53	4.4	Since I am the only teacher in a one classroom school – we are very limited, but it shows a future “school possibility”.
Relevance/Applicability of Material to my job	40	3.3	Aggressive presenter – Dynamic – sounds like a successful program that could be a good model for a program.
Organization/Clarity of Presentation	45	3.8	Tried to cover too much info needed to focus more on the assess duties & develop of curriculum than the structure of the school.

**Financial & Operational**Total Evaluations received 29

Value of information presented	138	4.7	Keep us informed. Not enough time, open to answering questions, enough materials.
Professional Quality of Presentation/Presenter	134	4.6	Very helpful. Could have been longer. Should be 2+ hours. Just what I needed to get started. Needed more time.
Relevance/Applicability of Material to my job	137	4.7	Lost his own power pt. Presentation – made things confusing. Have session that has people who have taken admin. Course on School Finance & another basic one for those not familiar with that.
Organization/Clarity of Presentation	132	4.5	Would be great to have an advanced session for people who are up & running – novice questions held back the presenter getting through all the info.

Value of information presented	273	4.7	Why not a 4 hour Why Try for us? Good presentation skills & very viable & pertinent info. Every statement showed how his approach can work for us. Perhaps we can work together to create a California Tour and save \$\$ to get his training.
Professional Quality of Presentation/Presenter	276	4.8	Possibly the best most useful & inspiring testimony & curriculum. Entertaining – but it leaves us with nothing unless we want to buy. No handouts!!
Relevance/Applicability of Material to my job	275	4.8	I will pursue more info on this training. I sensed a capitalistic sales approach. A shameless plug for what sounds like a pretty good program. Need handouts!
Organization/Clarity of Presentation	273	4.7	Tools I can use in my classroom – Finally. Excellent!! This is the kind of material & insight we can use. I expected hype & I was given tools. There is no word for the value of listening to & learning from someone who understands.

Value of information presented	155	4.3	Draw out – handout would have told it all! Need to be longer than an hour. Helpful to have handout ahead of presentation. Valuable info. This session was not on topic listed in program. Good info – but where were the strategies? Wish you could have finished. Didn't bring in what was posted for presentation? Does giving the ASMIV require proper training? Do teachers need to get parent or guardian permission to give it? As a RSP teacher I understand that you MUST get permission to give. This should all be addressed in your presentation. Need more time on presentation – please give handouts so we can take notes when necessary. Give me the handouts to annotate – I can focus more on you – great stuff – but you sucked me into my note taking compulsion with excellent material.
